Re: Accoustic Telemetry Logs

Dear Dave:

This is to let you know that I have forwarded the accoustic telemetry logs to Jonathan Bridge of Geo Trans in Boxboro. I found that Xerox Reprographics in Waltham will copy rolled data at a cost of \$1.20 per foot. I made one copy each of UC-11, UC-12, and UC-13. The quality of the copies is fair to good with most of the copy being clear, however, each copy has blurred sections. If I can be of any further assistance, please feel free to call or write at the letterhead address.

Very truly yours,

Lawrence M. Hogan  
Geologist

LMH/lw
